

## HEAVY DUTY SOLAR BATTERY ENCLOSURES

Heavy batteries demand a solar battery box with extra strength and durability. In some cases, ventilation is needed for not just cooling the enclosure, but also for the release of potential battery gases. This box is a NEMA 3 rated with NEMA 4 or 4X rated boxes are available if required.

### Applications

- \* Remote Power
- \* Communications Power
- \* Backup Power
- \* Telecommunication
- \* Security systems
- \* Outdoor Data Communications
- \* Repeater Site Power

**Item# BPBBA1NEMA3**

Designed for Qty 1 Group 27 Batteries  
Includes a Backplate

Dimensions:  
16" H x 16" W x 10" D  
13" x 13" Back Panel

- Features:
- Brushed Aluminum (Cooler than steel)
  - Lightweight and Durable
  - NEMA 3R
  - Stainless Steel Hinge and Hardware
  - Stainless Steel Padlock Hasp
  - Closed Cell Neoprene Gasket
  - Screened / Louvered Air Vent

This heavy duty enclosure is fabricated from .125 5052 aluminum and is manufactured to NEMA 3R specifications.

This is typically used for one Group 27 batteries.

Mounting slots accept up to 3-1/2" U-Bolts, for up to 3" nominal pipe. Also can be mounted to flat surface, or to larger poles with additional hardware.
