

/ Power Your Home with SolarEdge

More Energy

Install SolarEdge to maximize production from each solar module by eliminating power losses that can be caused by soiling, shading, or snow. More power = more revenue for faster system payback and lower electricity bills.

More Aesthetic Rooftops

SolarEdge enables optimal rooftop utilization, resulting in more modules on the roof for more energy, more savings, and more aesthetic rooftops.

Full System Monitoring

Monitor your real-time system performance from the palm of your hand. Accessible for free, anytime, anywhere, from your computer or mobile device.

Advanced Safety

SolarEdge provides peace of mind with built-in safety features compliant with the most advanced safety standards, for maximum protection of people and property.

Long-Term Warranties

SolarEdge products are built for lasting performance. Protect your investment with warranties amongst the longest in the industry: 25 years for power optimizers, 12 years for inverters (extendable to 20 or 25 years for an additional cost).

Future-Proofed Solutions

Put a down payment on your future with SolarEdge. Enjoy easy upgrades to battery storage, EV charging, and other cutting-edge smart energy capabilities.

/ About SolarEdge

SolarEdge is a global leader in smart energy technology. By deploying world-class engineering capabilities and a relentless focus on innovation, we create smart energy products and solutions that power our lives and drive future progress.

Making Solar Systems Smarter

solaredge

/ The Complete SolarEdge Residential Solution

Power Optimizer

- Connects to each solar module enabling them to perform at maximum capability
- Provides greater energy production, enhanced safety, and constant feedback from each module

Inverter

- The brains of the PV system
- Efficiently converts DC energy to AC electricity for use in your home
- Manages system production, battery power, and EV charging
- Optional meter to track your home energy consumption

Monitoring Platform

- View real-time system and module performance, and receive notifications on mobile devices
- Visibility of energy production and consumption, battery charge level, and EV charge status

SolarEdge Inverters SetApp

Inverter commissioning has never been this easy. Activating and configuring your inverter is now done directly through your smartphone using the SetApp mobile application. All the information you need is in the palm of your hand; the display screen is no longer needed in the new range of SolarEdge inverters!

StorEdge®

- Stores PV energy in batteries for use when needed
- Provides backup power for the home during grid outages

Compatible with

 LG Chem RESU batteries

Integrated EV Charger

- Combining EV and PV significantly reduces hardware costs
- Save time and effort, and avoid a potential main panel upgrade
- With solar boost mode, charge even faster than a standard Level 2 charger
- EV charging station also available
